

Fund aim

The fund seeks to deliver a return in excess of CPI+4.5% by investing in a diverse range of global equities through a bottom up stock selection which can be complemented by investment in third-party funds.

Investment style

The fund seeks to deliver diversified exposure to global equities through a bottom-up equity selection process that identifies competitively advantaged businesses with an opportunity to grow free cash flow and improve or sustain high returns on capital over a 3-5 year time horizon. Position sizes are allocated on a conviction basis but the fund is constructed with awareness with respect to the Sector weightings in the MSCI All Country World.
