SUPPLEMENT

for

WAVERTON MULTI-ASSET CAUTIOUS FUND

DATED 13 June 2025

WAVERTON INVESTMENT FUNDS PLC
SUPPLEMENT
FOR
WAVERTON MUTLI-ASSET CAUTIOUS FUND
(the "Fund")

Important Information

This supplement (the "Supplement") forms part of, and should be read in conjunction with, the prospectus (the "Prospectus") issued, and may be amended from time to time, by Waverton Investment Funds plc (the "Company"), a UCITS umbrella fund with segregated liability between its sub-funds pursuant to the UCITS Regulations. Unless otherwise defined herein, capitalised terms used in this Supplement shall have the meaning given to them in the Prospectus. To the extent that there is any inconsistency between the Supplement and the Prospectus, the Supplement shall prevail. Details of the other Funds offered by the Company are specified in the Prospectus and will be available on request.

The Company has obtained the approval of the Central Bank for the establishment of the Fund as a UCITS pursuant to the UCITS Regulations.

The distribution of this Supplement and the Prospectus and the offering or purchase of the Shares may be restricted in certain jurisdictions. No persons receiving a copy of this Supplement or the accompanying application form in any such jurisdiction may treat this Supplement or such application form as constituting an invitation to them to subscribe for Shares, nor should they in any event use such application form, unless in the relevant jurisdiction such an invitation could lawfully be made to them and such application form could lawfully be used without compliance with any registration or other legal requirements. Accordingly, this Supplement does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation. It is the responsibility of any persons in possession of this Supplement and any persons wishing to apply for Shares pursuant to this Supplement to inform themselves of, and to observe, all applicable laws and regulations of any relevant jurisdiction. Prospective applicants for Shares should inform themselves as to the legal requirements of so applying and any applicable exchange control regulations and taxes in the countries of their respective citizenship, residence, incorporation or domicile.

SUMMARY OF PRINCIPAL TERMS

The following is a summary of the principal terms of the Fund. The following summary is qualified in its entirety by reference to the detailed information appearing elsewhere in this Supplement and by the terms and conditions of the Articles, the Prospectus and the subscription documents of the Fund, which should be read carefully by each prospective shareholder before investing.

Investment Objective	<p>The investment objective of the Fund is to achieve long term capital growth.</p> <p><i>There can be no assurance that the Fund will achieve its investment objective. It is recommended that for retail investors an investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.</i></p>
-----------------------------	---

Investment Policy

The Fund seeks to achieve its investment objective through investment of up to 100 per cent. of its assets in a diversified portfolio of equities, fixed and/or floating rate global government and corporate Debt Securities, Structured Products, deposits, cash, money market instruments, commodities to the extent that these are permitted by the UCITS Regulations and collective investment schemes, which may themselves invest in the foregoing asset classes. The Fund's investment strategy shall not be specific to any particular industry sector or geographic region. The Investment Manager applies a "top-down meets bottom-up" approach, whereby the Investment Manager uses both the top-down and bottom-up investment views that it generates across equities, fixed income and alternatives. Alternatives include, but are not limited to, real estate, infrastructure, commodities, asset financing, and specialist lending. Exposure to these assets may be obtained via direct and indirect investments in equities, government and corporate Debt Securities, Structured Products, deposits, cash, money market instruments, ETFs, exchange traded notes and investment trusts which may themselves invest in the foregoing asset classes to the extent that these are permitted by the UCITS Regulations.

In relation to equities, the Investment Manager has an actively-managed, direct, global and concentrated investment approach. The Investment Manager constructs high conviction portfolios and applies a four-step framework when selecting securities. First, idea generation, which relies on meetings with the target companies, as well as using third party research and applying region-specific screening using financial metrics to highlight potential opportunities. Secondly, the Investment Manager selects stocks, all of which have been analyzed in detail by the Investment Manager's equity team. Third, the Investment Manager looks at portfolio construction, which takes into account not only its fundamental bottom up research but also the macro-economic views of the Investment Manager's asset allocation committee. Once the portfolio's stocks have been selected, the fourth and final step is for the Investment Manager to implement its selection. In relation to fixed income investments, the strategy of the Investment Manager is heavily influenced by applying a top-down analysis of markets, complemented by a thorough examination by the Investment Manager of credit fundamentals. A combination of independent research, interactions with issuer companies, and in-house macro views generate the most appropriate and suitable corporate and/or government debt securities. In particular, the Investment Manager looks at the duration, credit and currency of these fixed income investments. In applying this range of quantitative and qualitative criteria to define, analyse and select the most appropriate investments for the Fund, the Investment Manager may also include open ended funds, investment companies and passive strategies, both index funds and ETFs, to create a universe of collective investment vehicles available for selection.

The Fund may invest between 30 per cent. and 60 per cent. of its Net Asset Value in equity securities issued by companies with any market capitalisation which may include ordinary shares or common stock, preference shares, ETFs, investment trusts, American depository receipts, European depository receipts and global depository receipts which generally are listed, traded or dealt in on a Regulated Market.

The Fund may invest up to 70 per cent. of its Net Asset Value in Debt Securities (by way of direct investment or through the use of collective investment schemes to provide exposure to the underlying asset class), such as OECD government or supranational Debt Securities, corporate Debt Securities, bankers' acceptances and commercial paper and in Convertible Debt Securities. The Fund may invest up to 10 per cent. of its Net Asset Value in contingent convertible securities. The Debt Securities in which the Fund invests shall not be from any particular industry

	<p>sector. The Debt Securities may be either investment grade or below investment grade rated by a rating agency such as Moody's or Standard & Poor's. Up to 70 per cent. of the Net Asset Value of the Fund may be invested in Debt Securities that are rated below investment grade. The Debt Securities may be denominated in any currency.</p> <p>Not more than 30 per cent. of the Net Asset Value of the Fund will be invested in securities of issuers established in Emerging Market Countries.</p> <p>The Fund may not invest more than 20 per cent. of its Net Asset Value in any one collective investment scheme. The underlying collective investment schemes in which the Fund may invest will provide exposure to one or more of the asset classes which form part of the Fund's investment policy.</p> <p>The Fund may acquire Shares in another sub-fund of the Company by investing up to 20 per cent. of its Net Asset Value in that other sub-fund. However, the Fund may not invest in a sub-fund of the Company which itself holds Shares in other sub-funds of the Company. Where the Fund invests in another sub-fund of the Company or any other fund managed or advised by the Investment Manager, it may not charge an annual management and/or investment management fee in respect of the portion of its assets invested in the other sub-fund/fund.</p> <p>Investment in Structured Products shall be subject to an aggregate limit of 30 per cent. of the Fund's Net Asset Value.</p> <p>The Fund may utilise any of the financial derivative instruments described in the section entitled "Investment Techniques and Instruments" for efficient portfolio management and/or investment purposes.</p> <p>Furthermore, the Fund may hold Ancillary Liquid Assets where in view of market circumstances the Investment Manager believes that it would not be in the interests of Shareholders for the Fund to be fully invested or where the Fund needs to maintain liquidity to meet repurchase requests.</p> <p><i>Leverage and Long / Short Exposure</i></p> <p>It is possible for the leverage of the Fund to be as high as 200 per cent. of the Fund's Net Asset Value, whereby leverage is calculated as the sum of the notionals of the derivatives used. Please see the section entitled "Measurement of Market Risk and Leverage" for additional information.</p> <p>It is anticipated that the maximum notional exposure of the Fund to long and short positions will be up to 100 per cent. and 100 per cent., respectively, of the Net Asset Value of the Fund.</p>
<p>Currency Hedging</p>	<p>Share Classes that use currency hedging techniques are identified in the column of the table in Schedule I of this Supplement entitled "Currency Hedging".</p>
<p>Performance Benchmark</p>	<p>The Fund is actively managed and uses its Benchmark for performance comparison purposes only. The performance benchmark against which the Fund's performance is measured is the UK Consumer Price Index +2.5 per cent., reflecting an expected moderate to low-risk portfolio outcome over the investment cycle.</p> <p>Details of the Fund's performance relative to its Benchmark and any other index or similar comparator against which its performance may be compared (a</p>

	<p>"Performance Comparison Index") is available in the Fund's KIID and is presented for indicative and illustrative purposes only. The Fund's Performance Comparison Index is comprised of: IA Mixed Investment 20-60% Shares; and Morningstar GBP Allocation 20-40% Equity.</p>
Sustainable Finance Disclosures Regulation	<p>The Fund is neither an Article 8 Fund nor an Article 9 Fund within the meaning of SFDR. Information on the integration of sustainability risks in investment decisions in respect of the Fund is set out in the section of the Prospectus entitled "Sustainable Finance Disclosures Regulation".</p>
